## GREEN HYDROGEN SUMMIT OMAN

DEC 5-7, 2022

MUSCAT, SULTANATE OF OMAN

AT OMAN CONVENTION & EXHIBITION CENTRE

GLOBAL SUMMIT &  
EXHIBITION

# GREEN HYDROGEN SUMMIT OMAN

The Green Hydrogen Summit will address all aspects of the hydrogen value chain, encompassing production, transportation, and storage challenges, and applications. Other topics that will be highlighted during the event include Carbon Capture, Storage, and Utilization (CCUS); Electrolyzer Technologies; Certificates of Origin; Carbon Pricing & Carbon Credits; Policy Frameworks and Bankability Criteria; and Safety Requirements, among a host of other key themes. Lingering questions about the efficacy of currently available green hydrogen technology and the prohibitive costs involved will be addressed. Experts will also chalk out strategies on how the government and private sectors can work together in project investment and partnerships to achieve the fastest possible adoption of green hydrogen.

## EVENT BRIEF

The Green Hydrogen Summit Oman 2022 offers an unparalleled opportunity for both International and Omani communities to come together, interact, connect, and network to grow the potential of hydrogen energy systems for a more sustainable future. The Omani industry's size and capabilities, including its lucrative market, provide significant potential for worldwide alliances that will unlock opportunities for the commercialization of new technologies.

## WHY SHOULD YOU ATTEND?

The Green Hydrogen Summit-Oman will cover a wide variety of policy, regulatory, commercial, technological, and certification issues that must be fully addressed for the hydrogen industry to take root. It provides the most ideal opportunity to engage directly with potential off-takers of hydrogen, buyers, infrastructure contractors, energy and tech companies designing the supply chain, and government agencies supporting this development. It brings together important stakeholders representing key players in the possible future of the hydrogen industry.

## WHO SHOULD ATTEND:

- Government Institutions and Associations
- Policy Developers and Regulators
- Industry Observers and Experts
- Research and Development Institutions
- Green Hydrogen Developers
- Electric Power Utilities
- Gas and Electricity Transmission System Operators
- Renewable Energy Developers
- Prospective Investors
- Universities and Education Institutions
- Technology Providers
- Engineering and Technical Consultants
- Management Consultants
- Legal Consultants and Lawyers
- Equity and Business Analysts

# MAKE THE MOST OF YOUR VISIBILITY WITH A DESIGNED SPONSORSHIP PACKAGE

## WHY SPONSOR

Choose from a variety of sponsorship opportunities to strongly position your brand, product or service at the Green Hydrogen Summit - Oman. A sponsorship will raise your company's profile, promote brand awareness, and provide you the opportunity to engage with potential clients before, during, and after the summit.

## SPONSORSHIP BENEFITS:

- Promote and enhance your brand image
- Reach potential customers
- Maximize your participation at the event
- Stand out from your competitors
- Drive traffic to your stand
- Benefit from highly targeted marketing
- Achieve multiple business objectives
- Assured ROI (Return on Investment)
- Develop new leads
- Gain from integrated PR and media exposure
- Display and position your products and/or services
- Highlight your organization's commitment towards the development of this emerging sector

Hydrogen

H<sub>2</sub>

# REGISTRATION

## MASTERCLASS

DAY 1

5<sup>TH</sup> DECEMBER

MASTERCLASS FEE

OMR 300

USD 770

### MASTERCLASS CATEGORIES

1 Green Hydrogen Technology (GHSO-T)

2 Green Hydrogen Application (GHSO-A)

3 Green Hydrogen Regulations & Policy (GHSO-RP)

4 Green Hydrogen Safety (GHSO-S)

## CONFERENCE

DAY 2 & DAY 3

6<sup>TH</sup> & 7<sup>TH</sup> DECEMBER

DELEGATES FEE

OMR 250

USD 650

### STRATEGIC SESSIONS

- 1 Oman Green Hydrogen Economy and Strategy
- 2 Global Hydrogen Review
- 3 Executive Panel: Oman as Global Player in Hydrogen Space
- 4 Oman as a Green Hydrogen Hub
- 5 Panel Discussion: Oman Green Hydrogen Infrastructure
- 6 Green Hydrogen Value Chain
- 7 Panel Discussion: Green Hydrogen Value Chain: Incountry Value
- 8 Investment and Partnership
- 9 Panel Discussion: Green Hydrogen Investment
- 10 Green Hydrogen Projects Finance and Bankability
- 11 Panel Discussion: Green Hydrogen Finance and Bankability
- 12 Spotlight on the Green Hydrogen Projects in Oman

### TECHNICAL SESSIONS

- 1 Green Hydrogen Production
- 2 Green Hydrogen Technologies: Research and Development
- 3 Panel Discussion
- 4 Green Hydrogen Deployment (Usage)
- 5 Transportation and Storage
- 6 Certification and Regulation
- 7 Energy Future Leaders' Programme

# SHOWCASE YOUR TECHNOLOGY SOLUTIONS, NETWORK WITH DECISION MAKERS & SECURE DEALS

## WHY EXHIBIT

Welcome to the Green Hydrogen Oman - 2022 Exhibition, the industry's trusted worldwide forum for showcasing, connecting, discussing, collaborating, and doing business, with the goal of propelling the hydrogen industry ahead.

## PACKAGE COST

### Shell Scheme Stand - 9 sqm

**OMR 1500 (USD 3900)**

**Including:**

- Lights
- Switchboard
- 2 Chairs
- 1 Table
- 1 Delegate Pass

### Exhibition Space

**OMR 150 / sqm. (USD 390)**

(10.5 sqm. minimum)

**Including:**

- 1 Delegate Pass

## WHO EXHIBIT

- Green Technology Providers & Specialists
- Manufacturers of PV Systems
- Green Energy Investment & Finance Firms
- Green Energy offtakers
- Energy EPC Contractors
- System Integration Providers & Specialists
- Power Controls Manufacturers
- Electrolyzer Manufacturers
- Electrolyzer Technology Providers
- Green Tech (OEM) Equipment Manufacturers
- Water Production Solutions & Specialists
- Digital Technology Specialists
- Automation System Providers & Specialists
- Workforce Training Services Providers
- Research & Institute Centres
- Technical Universities & Training Providers

## Floor Plan

**OMAN CONVENTION & EXHIBITION CENTRE**

Indications:

- Shell Scheme Stand
- Exhibition Booth
- Energy Young Leaders Program
- Academia Space
- H2 Cafe & Networking Lounge

# KEYNOTE SPEAKER

**HE Salim bin Nasser Al-Aufi**  
Minister of Energy and Minerals  
Sultanate of Oman

International  
Energy Agency

Challenges to the global energy transition have, of late, been exacerbated by uncertain geopolitical conditions and soaring energy prices, threatening the sustainability of future energy supplies, especially in the wake of the military conflicts in East Europe. Energy security has emerged as the dominant economic and energy priority, not only for hydrocarbon-producing economies but also for importing economies. Against this backdrop, the role of green hydrogen has become ever more important as a versatile and environmentally sustainable energy and as a solution for energy security. With some of the world's best sources of renewable energy and green hydrogen, Oman is at the heart of the future energy transition. It plays a critical role in bridging low-carbon energy trade and security at a global level.

## DIGNITARIES IN ATTENDANCE INCLUDE:

**HE Salim bin Nasser Al-Aufi**  
Minister of Energy and Minerals  
Sultanate of Oman

**HE Dr. Fatih Birol**  
Executive Director  
International Energy Agency (IEA)

The session will be  
moderated by:

**Dr. Manal Shehabi**  
Oxford University, SHEER  
Research & Advisory Ltd,  
and IEA Consultant
