Energy Executive circle

Bringing together the global leaders making an impact to accelerate the deployment of sustainable energy

The Circle will come together from all corners of the globe in reflection on COP28 and what comes next. They will share their thoughts on the current state and outlook of energy and the challenges and opportunities that will help drive sustainable energy.

Cross border collaboration can drive the deployment of new technologies and markets,

creating jobs, stimulating economic growth, and contributing to a more resilient and prosperous planet for future generations.

The proposed panels, comprising a ministerial panel and an expert panel, will offer a comprehensive exploration of energy transition, decarbonisation, universal energy access, and sustainable solutions.

THIS EVENT IS BROUGHT TO YOU BY **BIRBA**

Themes

Energy Transition, Access, and Solutions for Sustainable Energy

Themes

- AI, new technologies, and breakthroughs
- Innovative financing mechanisms for sustainable energy projects
- Overcoming barriers to universal energy access in underserved regions
- Role of digitalization and smart grid technologies in energy transition
- Building public-private partnerships for sustainable energy solutions

Energy Transition, Access, and Solutions for Sustainable Energy

Themes

- National energy transition strategies and roadmaps: The outlook from global energy leaders
- Policy frameworks and regulatory mechanisms for achieving decarbonisation targets
- Promoting investment in clean energy technologies and infrastructure
- Collaboration among nations to address global energy challenges
- Achieving a just and inclusive energy transition
