Women in Future Energies come together to network and share insights in support of future energies

**DECEMBER 12 7:30-10:00pm**

JW Marriott, OCEC

Muscat, Sultanate of Oman

THIS EVENT IS BROUGHT TO YOU BY **BIRBA**

# Women in future energies

Fostering inclusivity and collaboration to power progress and build a resilient future for all.

Climate change is a threat that requires renewable energy systems are implemented on a grand scale as we transition away from oil. This is a challenge that requires all hands on deck. Women possess unique knowledge, skills, and perspectives that can contribute to building a sustainable energy industry for the future.

Recognising this, GHSO seeks to amplify women's voices and participation in the transition to clean energy. Women have a vital role to play in the development of innovative solutions to energy. By nurturing a pipeline of women in sustainable energy, Women in Future Energies, seeks to foster inclusive and sustainable development and invites women to unite for our future.

# Agenda

## Women in future energies

### Welcome

- Opening remarks
- Organiser - welcome
- Sponsor - keynote

Diversity powers innovation. Women in the energy sector and engineering bring fresh perspectives, fostering creativity and holistic problem-solving. Their inclusion enriches teams, driving well-rounded solutions for the complex challenges our world faces. Every voice matters in shaping sustainable futures.

Women carve pathways for impactful contributions, contributing to cleaner technologies, resilient infrastructures, and a planet-conscious future. As vital contributors to a dynamic industry, women's participation also accelerates progress for society as a whole.

### Dinner

Join 'Women in energy' as we network, dine and enjoy insights from a select group of inspiring speakers.

### Panel 1

#### **Women in Energy, Past, Present and Future**

Explore the presence and role of women in the renewable energy space, opportunities, what the future might look like, and how we can shape it.

#### **Themes**

- What has the past looked like when it comes the role of women in the energy space and how has it changed?
- What does the present look like and what new opportunities are there in the energy sector?
- What do we want the future to look like when it comes to the presence and role of women in the renewable energy space?
- What are some things we can do to support growth of sustainable energy?

#### **Top media tips for women**

- Join a seasoned personal development coach as she arms our audience with top media tips. The goal is to help more women get media coverage and support them to excel!

### Panel 2

#### **Pathways to an impactful career in energy**

Exploring the unique career paths of women in energy and one lesson they can share to inspire our audience to advance their career.

- The role of women in driving the transition to renewable energy sources and addressing climate change.
- Women's unique perspectives to contribute in the development of cleaner technologies and sustainable practices.
